### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

This action is responsive to the amendment filed 3-13-2007, which has been entered.

Claims 2-3 and 6-7 are currently pending.

1. Claims 2-3 and 6-7 are objected to because of the following informalities: the claims should be on a separate sheet and should be not combined with the remark.

Appropriate correction is required.

### ***Specification***

2. The disclosure is objected to because of the following informalities: the disclosure is unclear because it is punctuated by numerous individual amendments. It is suggested to provide a complete supplemental disclosure.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 2-3 and 6-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, line 1, the term addition is unclear because it appears that the bicycle has other planetary transmissions that are not claimed. In claim 1, line 8, the intended scope of the claim is unclear because it is not clear as to what is meant by "normal forward motion". It is not clear as to when the forward rotation is not normal.

Regarding claims 1, line 3, the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

In claim 2, it is not clear as to what is meant by a special pedal.

In claim 2, there appears to be a double inclusion between the sun disk of line 2 and that of line 4.

In claim 7, the phrase "Method of getting for a bicycle" is unclear and confusing.

5. Claims 2-3 and 6-7 are rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

The claim(s) are narrative in form and replete with indefinite and functional or operational language. The structure, which goes to make up the device, must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device.

It is suggested that applicant arrange to contact examiner so as to clarify and expedite the process of this application.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marcus Charles whose telephone number is (571) 272-7101. The examiner can normally be reached on Monday-Thursday 7:30 am to 6:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ridley Richard can be reached on (571) 272-6917. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
